DETAILED ACTION

1. This action is responsive to papers filed on 10/13/06.

Response to Amendment

2. In response to applicant's amendment received on 10/13/06, all requested changes to the claims have been entered. Claims 13 and 14 have been added. Claims 6 and 11 have been cancelled.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-5, 7-10 and 12-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claims 1, 2 and 5, the newly added limitations "setting an examination range on a surface of a workpiece", "performing a pattern matching to determine if the imaged passing light matches the examination range" and "subjecting the image to binarization to carry out image

measurements” are not disclosed in the specification. In the Remarks, filed 10/13/06, at the bottom of page 7 and top of page 8, the applicants state “The subject matter is described in, for example, paragraphs [0037] to [0040] of the present application”, however the specification contains only paragraphs [0001] to [0025]. Furthermore, the Examiner thoroughly checked the specification for the limitations and was unable to find any mention of them in the description or drawings. It would appear that the applicant is incorporating limitations from the specification of copending application 09/821,816 in to the present application.

Priority

4. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on 3/29/2000. It is noted, however, that applicant has not filed a certified copy of the priority document, Japan 2000-92491(P) in the present application as required by 35 U.S.C. 119(b).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2624

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
